The Offering is expected to close on or about December 27, 2019 (the “Closing Date”) and is subject to Regulus receiving all necessary regulatory approvals.

The net proceeds of the offering will be used to fund exploration and development activities at the Company’s AntaKori project, for working capital, and general corporate purposes.

The Units will be offered by way of a prospectus supplement in each of British Columbia, Alberta, and Ontario and may also be offered by way of private placement in the United States.

The securities offered have not been registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements.
